A little help for grown-ups

Print, play and pack away.

Three things to do

1. Print pages 2-6. A grown-up cuts the cards; or point at whole sheets.
2. Set out only three foods first. Read or show one pictured order.
3. Serve one matching food, invent a side, then swap cook and customer.

Single-sided, Actual size/100%. A4 or US Letter. Pages 7-8 add inventions/customers; this adult page can stay on screen.

A gentler start

Offer two choices and one shape. Pointing, free serving and invented meals all work.

A new challenge

Tickets 7-12 describe one food with two properties. Change the menu or agree a sold-out substitute.
